Just a reminder, early withdrawal from the program needed to be indicated with continuing registration information and thus families are now responsible for the remaining tuition through the end of June regardless of any change of plans. Families who have confirmed they are staying through August are now also responsible for their continuing tuition through that date as we have already begun scheduling enrollments for September to fill positions based upon the withdrawal information you provided at registration.

NEW SUNSCREEN NEEDED!

Now that spring has arrived and we are enjoying longer sunny days, please bring in a NEW bottle of sunscreen (labeled with your child’s name) for them to keep at school. We routinely throw away last year’s supply at this time of year to ensure that all children are getting the safest and most effective coverage. As a reminder, please apply sunscreen to your child at home in the morning before school and we will reapply before afternoon playtime.

REMINDER: Please do not bring in “spray” sunscreens. THANK YOU!

PARKING LOT REMINDER

Please help us keep our school safe for everyone! Please drive slowly through the parking lot, enter and exit the lot in the appropriate manner, and be sure not to park on red curbs or in handicapped spaces. ALSO – please do not block exits and DO NOT PARK AT AN ANGLE AT THE PARALLEL PARKING DROP OFF CURB!

KEY FOBS

Another way to keep our school safe for everyone is to please use your key fobs! Please note that each person is responsible to have their key fob with them at all times in order to enter the school. As this is a security measure, it is not always possible to simply “buzz” you in, nor is it a good idea to wait for another family to arrive to let you in the front door if you have forgotten your key fob. We ask you to help us keep our school secure by not opening the door for others that you do not know. Please help us all stay safe by carrying and using your key fob daily. If you have lost or misplaced your key fob, please let the director know immediately.

MY CHILD NEEDS TO NAP – DON'T LET MY CHILD NAP!

It is the time of year for this common parent quandary to surface once again. Our teachers begin to hear either “Don’t let my child nap” or “Please make my child nap.” While most children gradually stop napping in the year before kindergarten, it is important to recognize that this is a biologically individual progression for each child. When children are ready to “give up” their nap, it typically comes gradually; with a move into a still much needed down time even if they do not sleep. Children may start giving up naps at home on the weekends but may still need a nap during a busy day at school. Often, the transition involves laying down for nap and sometimes sleeping and other times just resting.

While all our preschoolers have a rest period, it is impossible to force children to stay awake or fall asleep. The best way to determine if a child is ready to “give up” their nap is to watch their behavior. Tired children are unable to cope with every day activities and challenges. They become more negative and have social altercations with their friends and have decreased cognitive engagement. Some children who have been changed to a “rester” to avoid naps will also simply follow the biological calling and fall asleep in a chair or on a rug where they are doing a job!

Spring time often brings with it requests from parents for their child not to take a nap but become a “rester” instead. It also often accompanies the time change when it stays light longer making it even more difficult for children to give up the excitement of the day and go to bed. If the quest is to make bedtime easier, it is important to know that it is much more difficult to put an overtired child to sleep than one who is generally finished with the day. The key is to have quiet time before bed and perhaps a relaxing warm bath and story at a routine time. The routine nature of bedtime will start the process and the necessary sleep should follow easily.

If you think your child is maturing and “giving up” their nap, please consult with their teacher to determine if it is beneficial on the days that they are at school before making a decision that may make their afternoons with their friends more difficult. Your child’s teacher will help you know when your child is beginning to transition into the mature pattern of resting instead of sleep.

UPDATE REMINDER . . .

Please remember to **update** your child’s ID EMERGENCY information at the front desk. Updated information includes if you have moved, changed jobs, or changed **any** phone numbers or people with permission to pick up your child. Please remember to also update your child’s immunization record if they have received any new vaccinations or health information. Thank you!

INFANT ROOM VISITS

APRIL “TEACHING THEMES”

April’s teaching theme for the TODDLERS AND TWO’S is: Nature and Insects

TWOS' TRANSITION TO PRESCHOOL

Preschool is an exciting milestone for children. It marks the beginning of the transfer from the "unconscious absorbent mind" to the "conscious" one. Preschool is a time where children begin to participate in a larger group, use more refined motor skills, make self-directed choices about their activity and take responsibility for their moment-to-moment actions. The Montessori preschool class is designed for children from ages 3 to 6 years old. As your two-year old begins to show signs of being able to cope with this milestone of their lives, their teachers will be monitoring their progress and preparing them for this important transition. While we know parents are also anxious to see their child transition, we ask that you allow them the important gift of the last few months of development. The transition to preschool takes place much closer to the third birthday than it does to 2 ½ years old and toilet taught. These final months provide your child with the skills and confidence that solid developmental readiness brings to a true preschool child.
