

Montessori Schools of Irvine - NEWSLETTER – August 2020

Teachers' Appreciation

ALL of us at the Montessori Schools of Irvine wish to express our deepest appreciation to all the parents who share their kind words with us every day, as well as to those who on your own took the time to post online your very positive comments on behalf of our schools. When kindness, goodness and strength emerge in difficult times, it speaks volumes of the character of those wonderful individuals who demonstrate those values. Thank you – truly – thank you.

Thank you also for your special kindness to the teaching staff on teacher appreciation day. We are all honored to have your trust in caring about and for your children. Having your children with us brings happiness EVERY day.

FIRST NEWSLETTER OF THE MONTH

As COVID has been moving and changing from day to day, it seems that a month in between communications is too long. This will thus be a short email but updates of information as we receive it will be communicated to all our families. Please be patient with us as we must also wait for updates from politicians and our agencies.

SEPTEMBER – WHY AND HOW WE PLAN TO STAY OPEN (already Re-opened)

As an update to questions regarding our ability to **STAY OPEN** next quarter we want to share with parents why it continues to remain our plan.

Our program operates under dual agency permission. California Community Care Licensing provides our childcare licenses for ages infants through kindergarten. Childcare has been and continues to be essential, open, and onsite. Our early elementary program (through third grade) is operated under the California Department of Education Private School Affidavit. California Private School Law allows private schools operating under California Department of Education Private School Affidavit to also provide childcare under specific circumstances – all of which we meet. This indicates that our program will be allowed under these provisions

We have also contacted the agency responsible for granting waivers and will complete their paperwork once it is released. Again, we must also wait for updates from politicians and our agencies, but it appears that California childcare will remain essential and open.

In summary, we plan to continue to remain open as essential care under both our childcare license and private school affidavit but will also submit our documentation for the waiver.

ANNUAL TUITION INCREASES

Historically, tuitions increase only in September for the new school year. This year, due to being unable to predict what our annual budget will be going forward, we are at this time postponing a tuition increase until such time the economy is more predictable. Thus, tuitions are remaining the same going into September, however, we reserve the right to increase tuitions during the coming academic year (2020-21 October – August) to reflect the increase in the cost of our operations and, when possible, a well-deserved increase in staff salaries. We will of course notify you at least 30 days in advance of any increase.

We had a few parents ask about teachers' birthdays and anniversaries, so I have included them here for our families. Thank you for always thinking of us!
